## HAND TOOLS

### Introduction

Electaserv has over 40 years experience in the hand tool category providing extensive ranges to the national market during this time.

“Built” Hand tools were launched in 2012, the range has been developed from years of experience in monitoring top-moving lines in various markets.

This knowledge has enabled us to best develop a hand tool range that not only achieves our required quality standard and price but also cuts through the market with a branding that is easily identified and appealing to the consumer.

Our research indicates that consumers make a connection through the following.

- Built Hand tools – Building, Timber, Trade, Strength, Stability, Solid, Established.

The packaging of each product has taken into account both required product information and the need to optimize hanging space in store.

## GARDEN, RURAL & LEISURE

### Introduction

Electaserv has over 30 years experience in the garden tool market, providing extensive ranges over this period.

“Greenleaf” tools were launched in 2010, the range has been developed from years of experience in monitoring top-moving lines in various markets.

This knowledge has enabled us to best develop an Outdoor & Garden range that not only achieves our required quality standard and price but also cuts through the market with a branding that is easily identified and appealing to the consumer.

Our research indicates that consumers make a connection through the following.

- Greenleaf Garden & Leisure – Natural, Earthy, Outdoors, Nature, Peaceful, Energized.

The packaging of each product has taken into account both required product information and the need to optimize hanging space in store.

Further information can be found on our website at [www.electaserv.com.au](http://www.electaserv.com.au)
